

HD Encoding

for Sports & Special Events.

Coastal Media Group has been at the forefront of the HD revolution for several years, providing a full range of HD services. With our highly experienced staff, technological know-how and state-of-the-art HD equipment, CMG is fast becoming a leader in turnkey transmission solutions.

*Coastal Media Group has passed rigorous HD certification tests and qualified as an HD Preferred Vendor with many of the major network and news organizations – such as the ESPN Fox Network, Fox Sports, NBC, Turner.

Coastal Media Group provides fully managed remote HD encoding and decoding solutions for live sports, news and special events.

Our encoding kits provide on-site, HD and SD signal compression for transport over fiber and satellite infrastructures. They are securely mounted in a custom, shock-mounted flyaway case and easily transported to any desired event location.

Our qualified, on-site broadcast engineers and transmission tech managers will configure the equipment to your specifications, test transmission signals with your operations personnel, and remain on-site throughout the transmission.

HD Products and Services include:

HD Flyaway kits suitable for both Fiber & Satellite Apps.

HD Encoders & IRDs – Both Tiernan and Tandberg.

C-Band Trucks and Flyaways.

KU –Band Trucks and Flyaways.
