

Event Management

Live broadcasting is like assembling a puzzle. One missing piece can ruin the whole picture. Single or Multi-camera, your event demands a company you can trust.

That's why when Live Earth needed Event Management and Global Transmission Architecture for their internationally televised 24-hour concert event, utilizing HD video from ten venues spanning the globe, they called **Coastal Media Group** to make it happen. We are able to meet your needs by providing seasoned onsite management, field producers, ENG camera crews, satellite time, conditional access, worldwide distribution as well tape play-out facilities in our conveniently located state-of-the art Los Angeles and San Diego studios. Our professional service, customized to your needs, is unparalleled in the industry. Whether you're a seasoned television veteran or a novice on your first assignment, from conception through execution, we will assist in making your project a reality and ensure that the very best and most cost effective solutions are used to make your live event, whether satellite transmission or fiber distribution come off without a flaw. **Coastal Media Group** has performed countless live broadcast events for sports, entertainment and corporate leaders around the globe. Our formula isn't unique: personal service and uncompromising technical expertise. Our persistent drive to make each transmission a complete success is what sets us apart, making **Coastal Media Group** the best choice in transmission facilities coordination for your event.
